NEW! ProCharger Intercooled System for

2011 V6 MUSTANG

The ULTIMATE Power Adder® for the 2011 MUSTANG 3.7L V6

ProCharger: First Forced Induction System to Market for the 2011 V6 Mustang

With industry-leading experience in supercharging Ford engines, ProCharger® is once again first-to-market with an air-to-air intercooled supercharger system and tuner kit for the 2011 V6 Mustang, which is powered by an all-new 3.7L Ti-VCT engine. 100% complete ProCharger Systems and Tuner Kits are now available for order and shipping. (Automatic transmission cars, Tuner Kit only - Complete System coming soon)

Utilizing the patented and proven, self-contained ProCharger P-1SC-1 supercharger making 8 psi of boost, a highly effective air-to-air intercooler and dedicated 6-rib drive, a ProCharger system or tuner kit can add 170 or more HP to an otherwise stock 2011 3.7L Mustang running high quality pump gas. Given Ford's 305 hp rating for the new 3.7L engine, ProCharger-equipped 2011 V6 Mustangs make 475+ flywheel horsepower.

Largest, Most Reliable Power Gains in the Industry

Thanks to the dedicated supercharger drive system, highly efficient supercharger compressor design and very effective, air-to-air intercooler system, ProCharger produces the largest power gains in the industry. ProCharger horsepower increases are delivered with maximum reliability and everyday driveability.

ProCharger Tuner Kits

The Intercooled Tuner Kit is identical to the complete system, but omits fuel injectors and computer programming. Higher boost and power levels are available for modified engines.

- ProCharger® P-1SC-1 supercharger, patented and proven self-contained oiling design eliminates the need for external oil lines. 3-year warranty available.
- Large, 3-core air-to-air intercooler helps to provide the industry's coolest charge air temperatures and largest, safe power gains, and comes standard with an industry-best 3-year warranty.
- Available for manual and automatic transmissions.
- OEM quality and outstanding installed appearance.

170+ HP
